

PRODUCTION INGESTION PIPELINES

UPLOADING A PDF IS EASY. TURNING IT INTO AI-READY KNOWLEDGE
IS WHAT REAL AI ENGINEERS DO.

WHAT IS A PRODUCTION INGESTION PIPELINE?

- Converts raw files into AI-ready data
- Automates document processing
- Improves AI response quality
- Foundation of RAG systems
- Used in enterprise AI applications

PDF PARSING

- Extract text from PDF files
- Read document content automatically
- Supports AI knowledge extraction
- First step of ingestion

MARKDOWN CONVERSION

- Convert extracted text into structured Markdown
- Preserve headings and formatting
- Easy for LLMs to process
- Improves readability

METADATA EXTRACTION

- Extract document information
- File name
- Author
- Page count
- Creation date
- Useful for searching and filtering

CLEANING PIPELINES

- Remove unnecessary spaces
- Remove unwanted characters
- Normalize text
- Prepare clean AI-ready content
- Improve embedding quality
